Memories

Hobart High School
36 East 8th Street
Hobart, Indiana 46342
(219) 942-8521

In the fall, the school board finally announced its long-awaited decision to build a newschool. The results were in: HHS would be moved to a brand new location and the middle school would take over the current high school structure. But before the board could even cast their votes on the subject, excited HHS staff members were caught up in drawing layouts, making complicated proposals, and talking about their plans for the new building. While everyone else was drawn into the hype, the students were left to deal with the current building and everything that went with it. Though the school is rich with history, we were all ready for a change.

Renovations were completed at last, but while HHS students for the next three years enjoy air conditioning, new rest rooms, and a cardio lab, they will miss out on the anticipation of what the new school will actually be like. None of the students enrolled at HHS this year will be around to attend the new high school, and in many ways the students were simply *making the most of it*.

Students in physical education use the elliptical machines in the new cardio lab.

Doing his part to help the community during Service Learning is Senior Edward Jimenez painting a guardrail at a city park.

New Spanish teacher, Mr. Brandon Mosely, teaches his class in an elaborate costume for "Quiz Day."

After beating Griffith, head football coach, Mr. Wally McCormack, celebrates the varsity football team's first Lake Athletic Conference title.

HHS finally became air conditioned, but not all students, like Larita Thomas, enjoyed the cooler temperatures.

Freshman Eric Gaika is recognized for his first place finish at the state wrestling meet.

In the fall, the Community Project Center opened downtown to give Hobart residents an idea of what the new school would be like.

TEACHERS RETIRE

• Mrs. Lawrence, Mrs. Price taught 57 years

Two HHS teachers with a combined 57 years of teaching experience, retired from HHS in June. Mrs. Diane Lawrence, family and consumer science (formerly home economics) department teacher, spent her entire 32-year career at HHS.

She received her bachelors and masters degrees in FACS education from Purdue University West Lafayette and never gave a second thought to another career choice. "There might have been another career for me. I just never thought about it. I've wanted to be a teacher since I was a little girl."

At HHS, she sponsored the Home Economics Club for 32 years. For her first seven years of teaching, she was also the cheerleading coach.

Some of Mrs. Lawrence's most favorable experiences during her career as a teacher include seeing students who have graduated that come back and see her. "They finally get it. They finally realize what I was teaching them and say, I get it," she added. Mrs. Lawrence also enjoyed those students who really valued learning.

One of her favorite memories is her role in the faculty/student play, "See How They Run," in 1976. It was her stage debut, and she thought the experience was interesting and fun. At the same time, she was busy planning her wedding. "Both were very time consuming, but I had fun," she said.

Mrs. Lawrence also mentioned a spelunking trip with faculty and students led by the now retired Mr. Darryl Blink. "I like to experience new things. It was fun, but it was dirty, and wet." She mentioned that spelunking will not appear her list of future endeavors.

Though she has had few bad experiences as a teacher, Mrs. Lawrence does feel that discipline is her least favorite aspect of the education field. Especially now, she said, when parents put a lot of pressure on you to teach their kids values. "There are more responsibilities put on you by the administration, and paperwork," she said. "I want to thank the teachers and administrators who have been here and those that have already retired. They have all been especially helpful in sharing experiences," Mrs. Lawrence

said. She maintains that she will most miss the friendships she has made with HHS faculty members. "I have made a lot of good friends," she added. Of course, she will not miss grading papers and making lesson plans, and will instead plan her free weekends and evenings.

Mrs. Debbie Price, special education teacher, spent 15 of her 25 years of teaching at HHS. She also taught at Hamilton and Bailey elementary schools.

She decided to retire because her husband, who has taught for 35 years, is retiring. According to Mrs. Price, they plan to move to Tennessee to live on a little lake, where they will enjoy relaxing and she can catch up on her reading.

After attending Bloomsburg State University (Pennsylvania) for one and a half years, Mrs. Price transferred to Indiana State University, where she graduated with a bachelors degree in special education in 1979. In 1985, she earned her masters degree from Purdue Calumet.

During her years of teaching, Mrs. Price claims that one of the best experiences was when some of her students went to visit the entire fourth grade at Joan Martin, where they discussed their disabilities with the class.

Her biggest disappointment, however, was when the parents didn't get involved. "Having prepared for 'Meet the Teacher Night' for five years in a row and having 0% attendance by the parents; the students seemed so excited before and so let down after," stated Mrs. Price.

When asked what she will miss the most when she retires, Mrs. Price replied, "I will miss my students and co-workers. I will not miss the incredible amount of paperwork." She also feels that the students who remained in contact with her after graduation are encouraging because she knows she made an impact in their lives.

Mrs. Diane Lawrence plays with some children who visit her child development classes each year. Mrs. Debbie Price receives retirement gifts from fellow teachers, Mrs. Kathy Lute and Miss Helen Schmidt. Having been crowned queen of the FACS department, Mrs. Diane Lawrence speaks to subjects at a retirement luncheon. Helping a students with a question is Mrs. Debbie Price.

SENIOR ACTIVITIES

● Seniors given privileges to commemorate last weeks

Seniors enjoyed an "unofficial" four-day weekend. May 27 was considered "get sick day," as many seniors ditched and enjoyed a relaxing day at the beach, or had a cookout and played softball at Hillman Park.

The following Tuesday, May 31, started off the annual senior privilege week with open campus lunch. The seniors attended a short meeting in the auditorium before being let out for a lunch that was nearly two hours long.

The next day, June 1, seniors were dismissed from each class four minutes early, and on June 2, the class was served lunch.

During the lunch, students could pick between pizza and nachos along with a variety of side dishes, including a sundae bar. Also, a special section was roped off specifically for seniors to sit with each other.

Jonathan,

It is hard to believe that you have grown so. It seems like yesterday when you were following me everywhere that I had gone. You have learned many things, which still amaze us to this day. You sewed on your own buttons when they needed to be fixed. That day I got a flat while driving home, you knew just what to do. When Dad dumped out a bucket of nuts and screws, you knew how to put them together. You have a gift and many talents within yourself.

If it weren't for you wanting to play football, we would have never known about your sports opportunities. You have succeeded in many sports. We have watched you grow and give everything that you had, with no complaints.

I remember when you were young, people would rub your head just for a little luck for themselves. You boys earned the name Crayola Boys at church. I think it was because of that red hair.

Jon, you will become whatever you decide to be in your future. With the positive attitude, determination, and your very strong, will you will succeed.

You have traveled a long road with a longer one to go. There will be many choices to make. Go with what your heart tells you, as it never lies.

Good Luck Jon,

Love

Mom, Dad, Matt, Nicholas, and Tim

A few people with a lot of dedication put this yearbook together. As editor of the 2004-2005 Memories yearbook, I can tell you that it only happened because of the hard working members of the publications staff and our ever-patient advisor, Mrs. Cynthia Lambeth.

Thank you for taking the time to view the product our classes worked on all year (and all summer) long. Please take all errors with a teaspoon of sugar and the knowledge that after so many missing commas and misspelled names, everything begins to look the same...

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has also become an important employer of women, with 5.5 million women employed in the public sector in 1995, compared with 4.5 million in 1980.

There are a number of reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of women in its workforce. In 1995, 88% of the public sector workforce were women, compared with 78% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

Another reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are part-time or flexible. In 1995, 38% of the public sector workforce were employed on part-time or flexible contracts, compared with 28% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

A third reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are well paid. In 1995, the average salary of a public sector employee was £18,000, compared with £15,000 in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.
